

held this 22nd day of August 68

, makes the following

by-law pursuant to paragraphs (o) (q) and (r) of Section 80 of the Indian Act:

By-law No. 1

A by-law to provide controls and regulations for the disposal of sewage within the Millbrook Reserve to protect the health of the individual and the community.

1. DEFINITIONS

- (a) "Sewage Disposal System" means a sewage disposal system with or without water carriage, constructed for the purpose of disposal of human excreta and/or any liquid waste containing animal, vegetable or mineral matter in suspension or solution from residences, institutional, or commercial buildings.
- (b) "Sewage Effluent" means sewage after it has passed through a septic tank or has undergone some other form of primary treatment.
- (c) "Cesspool" means a covered pit into which raw sewage is discharged to disposal.
- (d) "Leaching Pit" means a covered pit into which sewage effluent is discharged to disposal.
- (e) "Disposal Field" means a sub-surface, open jointed or perforated, pipe system into which sewage effluent is discharged into disposal.
- (f) "Septic Tank" means a water-tight storage retainer into which raw sewage is discharged for the purpose of primary treatment including liquefaction and settling of solids.
- (g) "Pit Privy" means a pit covered by a frame shelter for the purpose of underground disposal of human excreta only.
- (h) "Cottage" means a summer residence or dwelling which is occupied for less than 4 months of the year.
- (i) "Sewage Disposal System without Water Carriage" means the disposal of excreta where running water is not involved to transport solid material.
- (j) "Sewage Disposal System with Water Carriage" means the disposal of sewage where running water is involved to transport solid or waste material.
- (k) "Sanitary Inspector" means a person appointed as a Sanitary Inspector by the Council for the purpose of this by-law.

2. POWERS AND AUTHORITY OF SANITARY INSPECTOR

- (a) Every owner and occupant of any land or building shall permit the Sanitary Inspector to enter upon the land or building for the purposes of inspection, observation, measurement and testing any sewage disposal system in accordance with the provision of this by-law.
- (b) The Sanitary Inspector shall have the power and authority to issue a written permit for the construction or installation of a sewage disposal system.

(c) The Sanitary Inspector shall have the power and authority to approve or condemn any existing or proposed sewage disposal system.

3. GENERAL PROVISIONS

(a) No person shall construct or install a sewage disposal system without a written permit issued by the Sanitary Inspector for such construction or installation.

(b) A permit shall not be issued until a plan of the proposed sewage disposal system is submitted in duplicate to the Sanitary Inspector and only after such plan is approved by the Sanitary Inspector.

(c) Plans for the construction or installation of a sewage disposal system shall:

(i) Describe the boundaries of the lot or property on which the system is to be constructed.

(ii) Describe in relation to the boundaries, any buildings and any water supplies within the boundaries as well as the position of the proposed sewage disposal system.

(d) No person shall dispose of any human excrement, laundry or washing waste or polluted water, on public or private property except by means of an authorized sewage disposal system for which a permit has been issued.

(e) The design and location of any sewage disposal system shall take into account, the location of wells, topography of the ground, water table, use of the property, area available, occupancy of buildings and soil characteristics.

(f) Notwithstanding the provisions described in this by-law, the Sanitary Inspector may require that specific modifications be made to any sewage disposal system where in the opinion of the Sanitary Inspector, such specific modifications are required in the interests of the health of the community.

4. RESTRICTIONS AND LIMITATIONS RESPECTING SEWAGE DISPOSAL WITHOUT WATER CARRIAGE

(a) A pit privy shall be considered as a sewage disposal system for the purpose of underground disposal of human excreta only.

(b) No pit privy shall be located, constructed or maintained to produce objectionable odours and unsightly conditions.

(c) No pit privy shall be constructed within 75 ft. of any well or within 5 feet of any property boundary.

(d) A privy shall include a cribbed pit constructed to exclude the entry of flies, rodents or surface water.

(e) A privy shall include a frame building shelter to provide

(i) A vented pit

(ii) Fly-tight construction

(iii) A self-closing door

(iv) A painted exterior

5. RESTRICTIONS AND LIMITATIONS RESPECTING SEWAGE DISPOSAL WITH WATER CARRIAGE

(a) A cesspool shall not be used as a method of sewage disposal for buildings other than cottages and only for cottages having not more than 1 kitchen sink or hand basin.

(b) No cesspool will be located within 40 ft. of any cottage or within 10 ft. of a property boundary or within 100 ft. of any well.

(c) The sewage disposal system for all buildings other than cottages with not more than 1 kitchen sink or hand basin that have interior plumbing facilities involving running water, shall include a septic tank, with or without a syphon compartment, discharging into either a disposal field or a leaching pit.

(d) No leaching pit or effluent disposal field shall be constructed within 75 ft. of any well or within 3 ft. of any property boundary.

(e) The minimum settling chamber capacity of septic tanks shall be 400 Imperial gallons.

(f) The minimum length of a sewage field for a private dwelling shall be 175 feet.

(g) No septic tank shall be constructed in a basement or under any building.

(h) Cesspools and leaching pits shall have cribbed sides, an open bottom and a suitable cover.

(i) The drainage pipe in a sewage disposal field shall not be less than 4 inch diameter and laid on a flat slope not exceeding 4 inches per 100 ft.

(j) All sewage effluent shall be discharged underground and ponding on the ground surface shall not be tolerated.

6. VIOLETION OF BY-LAW

Any person who violates any of the provisions of this by-law shall be guilty of an offence and shall be liable on summary conviction to a fine not exceeding one hundred dollars or imprisonment for a term not exceeding thirty days, or both fine and imprisonment.
